

AR 13-03

An Administrative Regulation
Granting the City Manager Authority to
Deviate from the Policy Proscribed in any Administrative Regulation

Section 1. Purpose

There are a large number of Administrative Regulations in force at the City currently. However, it is extremely difficult to tailor policies that adequately apply to every situation. Thus, situations may arise in which the City Manager needs discretion to deviate from those policies in order to effectively administer the affairs of the City.

Section 2. Policy

The City Manager shall have authority to deviate from the policy proscribed in any Administrative Regulation upon careful contemplation of the facts and circumstances involved.

J. J. MURPHY, City Manager
