DATE: July 25, 2019
SUBJECT: WEMCO Screw Flow RAS Pump Replacement

NUMBER OF PAGES INCLUDING COVER SHEET: 1

Bill,

The following is our quotation for the "In-kind" replacement of WEMCO Screw Centrifugal submersible pump Model E8K-SS-EEXR8 RAS Pumps. Since the existing pump has been installed, WEMCO have upgraded the screw centrifugal pumps to be even more robust and durable. The major upgrade includes adding an intermediate bearing frame to balance radial loads which will extend bearing and seal life. They also switch to Baldor Motors made in the US. The new Baldor motors have better lead times, better pricing and any Baldor shop can work on them. The new model number to replace your old WEMCO is Model SFE8-Z. The existign guide rail brackets can be reused for use on existgin guide rail system.

Item	Qty.	Description	Total Price
1	2	WEMCO Screw Centrifugal Pump Model SFE8-Z w/ Baldor US Made 5HP, 900 RPM motor suitable for 3/60/460V power. High chrome components include impeller & adjustable liner. 2 Part Epoxy Paint for Corrosion Protection. Replacement Seal leak monitoring relay. Lead Time: 15-17 weeks	\$38,386.00

Price includes freight F.O.B. factory. No taxes that may apply are included.

Terms: Net 30 days. 1.5% per month added after 30 days. Seller reserves the right to collect reasonable attorney fees and court costs in the event of non-payment.

Thank you for this opportunity to quote products represented by Falcon Environmental.

Sincerely,

Adam J. Pelican
